

This design created using the:

Monogram Wizard **PLUS**

Ad Design 002

1. We typed in the letter **S** into the **Letter 1 box** (it could have been entered in any of the initials or names places) and chose the font **Exact Script**.
2. We increased the size of the letter to **2.5"** using the **Letter Size control**.
3. The **Letter Width** was decreased to **75**.
4. The motif pak **Wreath** was selected and the motif **Wre 7** was used.
5. Using the **Design Adjustments** control, the motif was moved under the S, then the **Motif Size** was increased to **2.5"** and the **Motif Width** was reduced to **85**. The **Design Adjustments** controls were used again to move the motif into its final position.
6. **Layer 2** was selected and the letter **R** was typed into the **Letter 1 box**. The font **Old English** was selected.
7. The **Letter Size** was increased to **0.85"**, the **Letter Width** decreased to **75**, and the **Design Adjustments** controls were used to position the R.
8. The **Slanted Up** monogram style,  , was applied to the R and the **Design Adjustments** were used to place the R in its final position.
9. **Layer 3** was selected and the letter **A** was typed into the **Letter 1 box**. The font **Old English** was selected.
10. The **Letter Size** was increased to **0.85"**, the **Letter Width** decreased to **75**, and the **Design Adjustments** controls were used to position the A.
11. The **Slanted Down** monogram style,  , was applied to the A and the **Design Adjustments** were used to place the A in its final position.
